

"Father finds Dr. Miles' Anti-Pain Pills the best"

Medicine for rheumatism that could be found. They have done him more good than anything ever tried. We are never without them for we find them so excellent in so many ways, for so many things, especially for headache and rheumatism. Dr. Miles' remedies are so positive one always knows they will do good.

Marie A. Harris,
South Downing St., Piqua, Ohio.

Dr. Miles' Anti-Pain Pills have long been recognized, as Miss Harris says, as one of the very best remedies for the relief of rheumatism. Rheumatic pains, especially in chronic cases, often cause the most intense suffering, but Dr. Miles' Anti-Pain Pills seldom fail to give relief. Why suffer when relief is within easy reach?

ANIMALS TO TALK TO MAN

Noted German Scientist Satisfied That Condition Will Be Reached in the Future.

"Some day a man will talk to his dog and his dog will talk to him. So will the man talk to birds of the air. It will be then that all animal and bird life becomes articulate and a widening of our cosmic horizon, now undreamed of, will result." This was the statement at Los Angeles recently, of R. L. Garner, noted philologist and tutor of Maeterlinck, who has spent 25 years in the wilds of the Congo studying the chimpanzee and the gorilla. From these two animals, Garner believes will be strung the first two cables from which scientists will hang a bridge on which man and his lesser brothers of the world will meet in oracular converse.

"A dream, you say?" he continued. "Cannot the bee teach us a higher communism, the quick, effective elimination of the unfit and shirker? Cannot the birds tell us their secret of flying? Would we not like to know why the oriole, the oven bird or castle building ant are so much better engineers than we are? I believe the day will come when they will be able to tell us. In many respects the gorilla or chimpanzee is far more civilized than man. You never did or never will hear of either abandoning their wives."

After spending a vacation in Los Angeles Mr. Garner intends to return to the Congo for further study of the animals found there.

PLAN NEW DUBLIN CATHEDRAL

Roman Catholics Likely to Erect House of Worship Worthy of the Irish Capital.

Roman Catholic Dublin's desire for a great city cathedral is likely to be satisfied at last. The present pro-cathedral in Marlborough street has never been regarded as anything more than a stop-gap. The two fine cathedrals in the city, St. Patrick's and Christ Church, are, of course, the property of the Church of Ireland.

Some time ago the corporation acquired a site at Ormond Market, on the northern quays, for the erection of workmen's dwellings. The scheme was never popular and is open to grave objection.

The Roman Catholic archbishop of Dublin has now offered to purchase the Ormond Market area as a site for a cathedral at the amount which the corporation paid for it.

The suggestion for a Roman Catholic cathedral at this spot came from Prof. Patrick Geddes, who advocated a new artery of traffic which would bring the two Protestant cathedrals into line with a new Roman Catholic building.

Aroused Painful Memories.

All Farmer Hayseed's hands were in the village choir. At Christmas they used to come round to their master's home, and after much singing, or rather bawling, receive a gratuity. This Christmas being an extremely dark night, they took a stable lantern with them, and arranged themselves on Hayseed's lawn. They had scarcely got through the first verse of "While shepherds watched" when the old farmer's head appeared at the window, and a voice floated through the air. "Say, you chaps," roared the glum-looking farmer, as he threw a handful of money to the peace disturbers, "I'll give my blessing freely if you'll only sing 'Christians, awake,' or 'Ark the herald angels sing,' but, for heaven's sake, don't sing 'While shepherds watched.' Last Christmas, while you were a murderin' that same tune, some villuns come 'long an' lifted eight of ma best sheep from under your bloomin' noses."

Splendid Gift to Museum.

Ten scrapbooks compiled by Edward Fitzgerald, the poet of "Omar Khayyam," have been bequeathed to the Ipswich museum by his niece, Miss Eleanor Kerrick, to be added to the relics in the Fitzgerald room in Christ Church mansion. The scrapbooks consist of portraits of all manner of notabilities, kings and pugilists, bishops and murderers being pasted side by side. They contain many original pen-and-ink sketches by Charles Keene of Punch, also drawings by John Constable. Some of the drawings are enriched with comments by the poet.

Fleet Couriers.

The best runners in the middle ages were found among the couriers maintained by monarchs and cities. The runners of Tartary, England, Scotland, Italy and the Basque country all acquired reputations, and the histories of the times are replete with stories of their difficult exploits. The Pelchs, or Persian couriers of the Turkish sultans, often ran from Constantinople to Adrianople and back, a distance of 220 miles, in two days and nights.

Circuit court is in session this week with Judge C. E. Snodgrass on the bench. The new jury system seems to be working admirably as the offenders against the law are more than usually free to submit their cases and take such punishment as the court sees fit to inflict. One glance at the jurors will convince any person who knows the people of the county that the jury commission did its work well for the best citizenship of the county is represented on the juries to a very marked degree. The work of the court is not far advanced and for that reason we shall not attempt to give the proceedings this week. As we go to press there seems no likelihood that the Rush murder case will come up for trial this term.
